Oree Reality Shaping Thoughtful Urban Living in Pune

In a rapidly evolving real estate landscape, Oree Reality has emerged as one of the brands that stands for trust, design, and future-ready living. Established in 2022 (formerly Windows Group), Oree Reality has quickly built a strong reputation in Pune by delivering homes that balance modern lifestyles with sustainability, comfort, and long-term value. In a short span, the brand has successfully delivered over 1,000 homes, reflecting its commitment to transparency, quality construction, and customer-centric planning.

At the core of Oree Reality's philosophy is a belief that real estate is not just about structures, but about creating meaningful living experiences. Each project is thoughtfully planned to enhance everyday life—through intelligent layouts, quality materials, community-focused spaces, and strategic locations that offer both connectivity and serenity.

This philosophy is clearly reflected in Oree Reality's landmark developments: Oree Cloud 51 in Bavdhan and Oree Cloud 28 in Bhugaon—two projects that cater to distinct lifestyle aspirations while staying true to the brand's values.
